

A larder is a practical storage solution, both in terms of maximising space and how it can be used. This Ladbroke Larder from Cue & Co is made of walnut, a dark wood with a clearly visible grain. It features drawers, shelves and door-mounted racks so products are quick to find and easily accessible. Its doors are painted in Zoffany's Harbour Grey while its worktop is in Corian, a solid surface material. £6,700. [cueandco.com](http://cueandco.com)
